OncoQuest Announces Signing of a Definitive Agreement to Sell Drug Portfolio to Dual Industrial for U.S. \$300 Million and Commitment to Fund the Oregovomab Phase 3 Clinical Trial in Frontline Ovarian Cancer

EDMONTON, ALBERTA, April 22, 2020 – (CNW NEWSWIRE) — OncoQuest Inc., (“OncoQuest” or the “Company”) a privately held, cancer immunotherapy company today announced that it has entered into a definitive agreement to sell its clinical and preclinical immunotherapy development assets to Dual Industrial Co., Ltd., a Korean (KOSDAQ) publicly traded company (“Dual”) in exchange for U.S. \$300 million in a combination of Dual common stock and Dual perpetual convertible bonds.

Dual will also be responsible for all the cost of clinical and non-clinical development of the immunotherapy assets after the execution of the Asset Transfer Agreement and it plans to establish a U.S. based subsidiary to oversee all the product and clinical development functions.

“OncoQuest is delighted that the Dual transaction, not only secures funding for our Phase 3 trial for oregovomab in frontline ovarian cancer, but also maintains the senior management of OncoQuest which will continue leading the development of all of our clinical programs. US subsidiary also gives us a platform from which we can raise the additional capital to bring the transferred earlier stage clinical programs forward. It is truly an exciting partnership.” said Madi Madiyalakan, CEO of OncoQuest. “In addition, receiving equity consideration allows OncoQuest and its shareholders to continue to participate in what we hope will be the success of the OncoQuest product portfolio through ownership in Dual”, he continued.

Terms of the Transaction

Upon the execution of the definitive agreement, Dual will be responsible for all clinical and non-clinical development expenses for OncoQuest’s technology. Dual will secure U.S. \$75 million for the development which is expected no later than June 30, 2020 and will trigger the First Closing. At the Execution Date, OncoQuest shall receive U.S. \$125 million in a perpetual convertible bond, which is convertible into Dual common stock or may be redeemed by Dual for cash.

Once all necessary transfers and releases have been obtained by OncoQuest, there will be a Second Closing, confirming transfer of all legal title and registrations for OncoQuest’s drug portfolio to Dual. In return, Dual will issue U.S. \$175 million of Dual common stock to OncoQuest. The Second Closing is expected to occur no later than December 31, 2020.

Pursuant to the transaction, OncoQuest will have the right to nominate four board members to an eight-person Dual Board of Directors.

About OncoQuest

OncoQuest is a private biopharmaceutical company focused on the development and commercialization of immunotherapies for cancer. OncoQuest's technology platform includes a portfolio of tumor antigen specific monoclonal immunoglobulins including CA-125, MUC1, PSA and Her2/neu. The company is exploring the therapeutic potential of these antibodies in combination with other immune modulating drugs or drug combinations to enhance tumor specific immunity and clinical outcomes.

OncoQuest's lead product candidate, that is the subject of the asset transfer agreement, is oregovomab, an anti-CA-125 antibody, for the treatment of ovarian cancer that has completed a Phase 2 frontline randomized controlled study. In addition, oregovomab is currently being studied in multiple Phase 2 clinical trials in the relapsed recurrent ovarian cancer setting as well. OncoQuest's anti-MUC1 antibody program has already undergone a Phase 1 clinical trial in breast cancer patients, and its development is being led by OncoVent Co. Ltd., OncoQuest's joint venture partner that has licensed the rights of our immunotherapeutic antibodies in the territory of Greater China. OncoQuest's next-generation monoclonal antibodies are based on immunoglobulin E licensed from UCLA, Stanford University and Advanced Immune Therapeutics, Inc. These antigen specific monoclonal IgE antibodies are currently in preclinical development. To learn more, visit www.oncoquestinc.com.
